## Enfield Charter July 4<sup>th</sup> 1761

Beginning at the South East Corner of Labanon, from thence South Sixty Eight Degrees East, Six Miles & Three Quarters of A Mile thence North forty three degrees East, five Miles & one half from thence North fifty Eight degrees West Seven Miles & an half to the North East Corner of Labanon from thence by the East Side or Labanon to the first Bounds Mentioned And that the same be, and hereby is Incorporated into a Township by the Name of Endfield...

Laws of New Hampshire, Volume Four, Revolutionary Period, 1776 – 1784  
(Pages 363 to 364)

**An act to authorize & empower Jeremiah Page & Henry Gerrish Esquires & M<sup>r</sup> William Chamberlin to run out & settle the lines & boundaries of the Townships of Enfield alias Relham, and those lines, & boundaries of the Townships of Canaan & Grafton which are contiguous thereto or dependent thereupon ---**

... but upon surveying the said Township of Enfield agreeable to the words of the Charter the survey run in upon the Township of Canaan near one mile contrary to the expectation of the proprietors thereof as the then northerly side line of Enfield was reputed to be the southerly side line of Canaan. That upon examining into the matter it appeared that there was a gore of land between said Enfield & Grantham which was not claimed by said Grantham but appeared to be occasioned by a clerical error in drawing the Charter of said Enfield by writing sixty eight instead of fifty eight degrees which makes it interfere with & confound the lines of the adjoining towns. That by correcting said clerical mistake of sixty eight to fifty eight degrees it would make the lines of the Charter aforesaid uniform & agreeable...

Therefore

Be it enacted by the Council & House of Representatives in General Assembly convened and by the authority of the same it is hereby enacted. That the said Jeremiah Page, Henry Gerrish & William Chamberlin be and hereby are appointed a Committee to survey and lay out the Township of Enfield alias Relham and make the proper metes & boundaries thereof. And also those metes & boundaries of the Townships of Canaan & Grafton which are or may be contiguous thereto or dependent thereupon ...

And whereas it is mutually agreed by & between the said George Harris (Canaan), Jesse Johnson (Enfield) Jonathan Buffom & Russell Mason (Grafton) for & on the behalf of their respective Townships. That the southeasterly corner boundary of Lebanon which is likewise the southwesterly corner boundary of Enfield alias Relhan commonly called Sumners bound -- is a fixed known & true boundary.

Therefore

Be it further enacted by the authority aforesaid that the committee above mentioned in surveying said Township & making the metes & boundaries in manner aforesaid shall allow the said boundary commonly called Sumner's bound to be a right & true boundary – and shall regulate their procedure by & agreeable unto the same in a just & equitable manner according unto the best of their judgment: proper regard being paid to the seniority of Charter & the true intent & meaning of the same. And the return or report of said Committee or the major part of them being made to the Secretary's office within one year from the passing of this Act shall be binding & conclusive in law upon all parties & persons whatsoever--

**Passed March 28, 1781**

Town Papers, Documents Relating To Towns in New Hampshire, Volume XI  
(Page 613)

**Report of Committee on Town Lines, from “Town Boundaries”**  
(Page 209)

Whereas By an act of the General Assembly of the State of New Hampshire Passed the 28<sup>th</sup> Day of March 1781 Jeremiah Page Esq<sup>r</sup> with us the Subscribers was appointed a Committee to Settle the Lines and Boundaries of the Township of Enfield Alias Relhan and those Lines and Boundaries of the Townships of Canaan and Grafton which are or may be Contiguous thereto or depending thereupon -- pursuant to said appointment the Subscribers have performed said service in the following manner (viz)

Beginning at the Southeasterly Corner Bound of the Township of Lebanon which is the Southwesterly Corner of the Township of Enfield alias Relhan, Commonly cal'd Sumners Bound and

thence Running South fifty eight degrees East six miles and three fourths of a mile to a Hemlock tree Marked H G. W C &c

thence running North forty Degrees & forty five Minitis East about five miles and one half mile to a Spruce tree mark<sup>d</sup> as aforesaid which is the Dividing Line between Enfield and Grafton and is the Northeasterly corner of Enfield Alias Relhan and the Southeasterly corner of Canaan

thence Running North Fifty Eight Degrees West Seven Miles and Sixty Rods to a Birch Stump which is the Corner of Lebanon -- Enfield and Canaan thence by Lebanon to the Bounds first mentioned

Boscawen July 9<sup>th</sup> 1781

Henry Gerrish                      Com<sup>ee</sup>  
W<sup>m</sup> Chamberlin

To Ebenezer Thompson Esq. Secretary for the State of New Hampshire

Town Papers, Documents Relating To Towns in New Hampshire, Volume XII  
(Pages 388 to 389)

**Report of committee on boundaries, 1786**  
**Establishing the line between Lebanon and Enfield**

Whareas, we the Subscribers Being oppointed a Committee by the Honor<sup>bl</sup> General Assembly of said State to Establish the Boundaries between the towns of Lebanon and Enfield have meet accordingly upon said towns and after Due Examination of the Bounds and Lins of s<sup>d</sup> towns of Lebanon and infield,

Porceeded as foloweth,

firstly begin at a white Pine tree marked on the Easterly Bank of Conacutt River which is Caled the agreement tree between s<sup>d</sup> Lebanon and Plainfield and thence mesured easterly on the line Between s<sup>d</sup> Lebanon and Plainfield six milda to a Stake and Stone Comonly Known by the name of Sumners Bound then Examined the Lins and Records Shewen us Between s<sup>d</sup> Lebanon and Enfield and find a Bound Standing at the Northeasterly Corner of s<sup>d</sup> Lebanon Comonly Known by the name of the Birch tree but s<sup>d</sup> tree being fell Down a Stake and Stons Erected in the place whare said Birch tree stood; and we Do establish the first said Stake and Stons Coled Sumnors Bound to be a Bound between s<sup>d</sup> Lebanon and infield on the Southerly Side of s<sup>d</sup> towns, and the said Birch tree (now Stake and Stons) to be the northerly Bounds between s<sup>d</sup> Lebanon and infield, and Do order that a Strat Line be Drawen between s<sup>d</sup> Sumnors Bond and said Birch tree or Stake standing in the place of said Birch to be the Deviding Line between said Lebanon and said infield, and have Recommended to said Committee to settle with all Pursons who are on Land in ether of s<sup>d</sup> towns which shall fall out of the town which he settled in the best way which thay Can according to ower orders from s<sup>d</sup> Gen<sup>ll</sup> assembly

which is Humbly Submitted

October Y<sup>e</sup> 23 : 1786 -

Charles Johnston

Laws of New Hampshire, Volume Seven, 1801 – 1811  
(Pages 119 to 121)

**An Act to establish and make valid the report of Henry Gerrish and William Chamberlain, Esquires, relative to the boundaries of the Towns of Enfield, Canaan and Grafton, in the County of Grafton**

-- that the report of said Committee or the major part of them being made to the Secretary's Office within one year from the passing said Act should be binding and conclusive in law upon all parties and persons whatsoever.--

That said Committee made their report and survey, which the said Gerrish is confident was forwarded to the Secretary's Office within the year prescribed by said Act; which said survey and report is either lost or mislaid in the Secretary's Office, and cannot be found, but a true and just copy of the same is still retained by said Committee — that there are about forty families peaceably settled agreeably to the lines and boundaries established by said Committee, for nearly twenty years, and taxes have been assessed and collected — that in case said survey should not be considered valid, it might involve Inhabitants of said Towns in expensive lawsuits and inveterate animosities — which statement on a public hearing being fully proved, and the petitioners praying that the Secretary may be directed to receive said report and survey and record the same — that it considered as valid to all intents and purposes as through the same had been returned and recorded within the time prescribed by said Act—

Therefore—

Be it enacted by the Senate and House of Representatives in General Court convened, That the copy of said survey and report which is as follows (towit) "Whereas by an Act of the General Assembly of the State of New Hampshire passed on the 28<sup>th</sup> day "of March last, Jeremiah Page, Esquire was appointed with us the "subscribers a Committee to settle the lines and boundaries of the Township of Enfield alias Relhan, and those lines and boundaries of the Townships of Canaan and Grafton which are or may be contiguous thereto or dependent thereupon -- Pursuant to said appointment the Subscribers have attended said business, and by and with the consent of all the parties have performed said service in the following manner ...

(boundary description)

--- be received and recorded by the Secretary, and that the same be as effectual to all intents and purposes for the establishment of the boundaries of said Towns of Enfield, alias Relhan, Grafton and Canaan, as tho the original report had been returned and recorded in the Secretary's Office within the time prescribed in said act---

**Approved June 18, 1802**

## The Annexation of a Portion of Grantham to Enfield

### **1837 AN ACT to sever a certain tract of land from the town of Grantham and annex the same to Enfield.**

Be it enacted by the Senate and House of Representatives in General Court convened. That all that tract of land situated in the northeast corner of the town of Grantham, in the county of Sullivan, which is contained within the following limits, viz: Beginning at the northeast corner of said town of Grantham, thence on the dividing line between said Grantham and Springfield three hundred and eighty three rods to the southeast corner bound of lot No. twenty seven in said Grantham, thence westerly, parallel with the south line of Enfield four hundred and fifty rods, thence northerly parallel with the dividing line between Grantham and Springfield, three hundred and eighty three rods to the south line of said Enfield, to intersect the northwest corner of lot No. fifteen in Grantham, thence easterly on said Enfield south line, to the bound begun at, be and the same is hereby severed from the town of Grantham in the county of Sullivan and annexed to the town of Enfield in the county Grafton, and said territory shall hereafter constitute and be part of said town of Enfield and said county of Grafton.

## Town of Grantham's original lot layout metes and bounds description

**The preceding lotts were surveyed by James Smith assisted by David Clement & Elijah Johnson in the fall of the year 1806.**

- No. 15 Begins at a small beach tree standing in the north line of the Town 100 rods from the Northwest Corner of the Governors farm so called, then runs S 41 (degrees) W 160 rods to a hemlock tree marked with the letters I. S. and numbered 15-16-17 and 18, then N 58 (degrees) W 100 rods to the East line of the 13<sup>th</sup> lott, then N 41 (degrees) E 160 rods to the Town Line, to a small Burch tree then Easterly on the town line 100 rods to the first named bound.
- No. 16 Begins at the Northwest Corner of the governors farm so called, then runs N 58 (degrees) W on the north line of the town 100 rods to a beach tree marked No. 15 & 16 – then south 41 (degrees) W 160 rods to a Hemlock tree No. 15-16-17 & 18 then S 58 (degrees) E 100 rods to the west line of the Governors Farm. Then N 41 (degrees) E 160 rods to the bound begun at.
- No. 17 Begins at a Small Beach Tree standing in the Northwest Corner of the 20<sup>th</sup> lott which is the corner of four Lotts (viz.) No. 17-18-19 and 20 – then runs N 58 (degrees) W 100 rods to the East line of the 11<sup>th</sup> lott, then N 41 (degrees) E 160 rods to the Southwest Corner of the 15<sup>th</sup> lot then S 58 (degrees) East 100 rods to a Hemlock tree marked and numbered 15-16-17 and 18 then N 41 (degrees) W to the first named bound.
- No. 18 Begins at a small beach tree standing in the northwest corner of the 20<sup>th</sup> lot marked as above stated, then runs N 41 (degrees) E 160 rods to a hemlock tree marked and numbered 15-16-17 and 18, standing in the Southwest Corner of the 16<sup>th</sup> Lott then S 58 (degrees) E 100 rods to the West line of the governors farm, then S 41 (degrees) W 160 Rods, the N 58 (degrees) W 100 rods to the bound first named.
- No. 19 Begins at a small Beach tree standing in the Northwest Corner of No. 20, then Runs S 41 (degrees) W 155 rods to a small white Maple standing in the Northeast Corner of a Second hundred laid out to Nath'l Hall on the Propagating Right then N 61 (degrees) W 100 rods to the Northwest Corner of said Propagating Right on pitch then N 41 (degrees) E 160 rods, then S 58 (degrees) E 100 to the first named bound.
- No. 20 Begins at a small Beach Tree standing in the Northwest Corner of the 19<sup>th</sup> lott marked and numbered 17- (?) 18-19 and 20 – then runs S 41 (degrees) W 155 rods to the Northeast Corner of a pitch laid out to the propigating Right then S 58 (degrees) E 100 Rods then N 41 (degrees) E 155 rods to the Southeast Corner of the 18<sup>th</sup> lott then 58 (degrees) W 100 to the bound begun at.

No. 27      Begins at a white maple tree marked with the letters I. S. and numbered 25 and 27 and is the South -West corner of lott No. 27 and the Northwest Corner of No. 25 then runs N 41 (degrees) E about 95 rods to the Governors Farm so called, then S 58 (degrees) E about 75 rods to Springfield line, then S 41 (degrees) W on Springfield line about 95 rods to the Northeast Corner of the 25<sup>th</sup> lott, then N 58 (degrees) W about 75 rods to the first named bound.

No. 28      Begins at a Hemlock Tree standing in the Northeast Corner of lott No. 27 Numbered 27 & 28 then runs N 58 (degrees) W 104 rods to a Spruce Tree marked, then S 41 (degrees) W 93 rods to a Large (Crotched ?) beach tree marked and numbered 26-28-29 and 30, then S 58 (degrees) E about 104 rods to a white maple tree marked which is the corner of lotts No. 25-26-27 & 28, then N 41 (degrees) E to the bound first named.

No. 29      Begins at a spruce tree standing in the Northwest Corner of the 28 lot, then runs N 58 (degrees) W 94 rods to small spruce tree standing in the Southwest Corner of the Governors farm, then S 41 (degrees) W about 93 rods, then S 58 (degrees) E 94 rods to a large Beach tree marked and Numbered 29 & 30 then N 41 (degrees) E to the first named bound.

**Governor's Farm    No lot layout was found for the Governor's Farm.**

The History of Canaan New Hampshire - (Published 1910)  
(Pages 105 - 106)

**Survey to settle the location of the Enfield/Canaan Town Line**

The map of Enfield survey, at this time, (1805) gives the same course as the Canaan map, each town assisting the other in running the line. For eighty years no question of its correctness arose until in 1883, Henry H. Wilson, who had been a continuous selectman, after close examination, became convinced that the covered bridge over the Mascoma, called Blackwater or Scofield Bridge, was in Enfield and should be cared for by that town. The interesting cause was kept up two seasons and several skillful surveyors were employed. At first the bridge was thrown into Enfield, which was a triumph for Wilson and Canaan. The defeated party then put on an additional surveyor and there was a victory for Enfield. Mr. Wilson then put on Prof. Charles H. Pettee, a civil engineer and surveyor, in whose skill and exactness he had the greatest confidence, and decided to abide the result of his labors. The bridge was in Canaan by a few feet. The method pursued was as follows:

By placing a signal on Moose Mountain at a Point known to be a few feet from the line, a trial line having been run with the compass from the western bound to this Point. Then a Point on Grafton hills beyond the eastern bound and on the Prolongation of the town line was found and a signal was erected, this point giving a view of east bound in Grafton west line and Moose Mountain stations. Then the position of Moose Mountain station was corrected by sighting on Grafton station and running a line to west bound. Intermediate stations on Howe and Coggswell Hills were determined from which the position of the various roads was obtained and marked by temporary stakes. The bearing of this line from Grafton Station, Coggswell Hill and various intermediate points was N 52 3/4° W, from Howe Hill it was N 53 1/2 ° W, showing a slight variation.

And to establish the line so that there should be no further cause for dispute the selectmen of the towns traversed the seven-mile line and placed thirteen stone posts firmly in the ground, one at each highway leading from Canaan to Enfield. The expense of this campaign against the bridge to the towns was about \$175.

## 1884 Petition by Enfield Residents to Annex a Portion of Enfield to Lebanon

Beginning at a stake and stone on the easterly line of Lebanon aforesaid about one hundred and forty five rods northerly and easterly from the northerly side of the house of Miner Purmonts.

Thence at right angles with said easterly line of said Lebanon south  $54^0$  east fifty rods to a stake and stones.

Thence south  $19 \frac{1}{4}^0$  west eleven hundred rods to a stake and stones on the northerly line of Plainfield in the county of Sullivan and southerly line of said Enfield.

Thence north  $68 \frac{1}{2}^0$  west on said line between said Enfield and said Plainfield to the south east corner of said Lebanon and south west corner of said Enfield to a post set in the ground about three hundred and eighty rods.

Thence north  $36^0$  east on the line between said Lebanon and said Enfield about eleven hundred and ten rods to the point first mentioned.

And your petitioners further show that they are all residents within the district above described.

The reasons assigned by your petitioners for the granting of this petition are as follows.

1<sup>st</sup>) That it will conduce greatly to the convenience of your petitioners as they now do their marketing and get their mails at said Lebanon.

2<sup>nd</sup>) In order to attend the meetings of said town of Enfield they are compelled to travel seven miles or more over exceedingly difficult and high hills and often the roads are impassable in which case we can only reach the place of meeting of said town of Enfield by going a circuitous route and a distance of twelve miles or more.

3<sup>rd</sup>) We can attend the meetings of said town of Lebanon by traveling a distance of about five miles and the roads are always passable for that purpose.

4<sup>th</sup>) In many other respects said setting off of said district will greatly conduce to the convenience of your petitioners.

Wherefore your petitioners humbly pray your honorable bodies that this petition may be granted and that the above described portion of said Enfield may be set off from Enfield and annexed to said Lebanon and your petitioners as in duty bound will ever pray.

## 1885 Town Meeting

Article 9: To see what action the town will take in regard to the petition of J. E. Gile and others to be severed from the town of Enfield and annex to the town of Lebanon.

Vote on Article 9: On motion voted to send two agents to meet the petitioners at the legislators to oppose division of the town.

## 1884 Petition in True North and Feet

Beginning at a stake and stones on the easterly line of Lebanon about 2,392 1/2 feet, north east from the northerly side of Minor Purmonts house. (Tax Map 6, Lot 1)

Thence, right angle with easterly line of Lebanon, south  $66^0$  east for 825 feet to a stake and stones.

Thence south  $7\frac{1}{4}^0$  west for 18,150 feet to a stake and stones on the northerly line of Plainfield and southerly line of Enfield.

Thence north  $80\frac{1}{2}^0$  west on Enfield / Plainfield town line to the south east corner of Lebanon and south west corner of Enfield to a post set in ground about 6,270 feet.

(The compass bearing north  $80\frac{1}{2}^0$  west [north  $68\frac{1}{2}^0$  west magnetic] is not the correct bearing for the Enfield / Plainfield town line. I believe there was a recording error made. If you follow the distance of 6,270 feet, and follow the Enfield / Plainfield town line, it will bring you to the south east corner of Lebanon and the south west corner of Enfield.)

Thence, north  $24^0$  east on the Lebanon / Enfield town line about 18,315 feet to the point first mentioned.

## A story about the Enfield/Hanover Town Line

There is a story told by some long-term Enfield residents about the Enfield/Hanover Town Line. This story states that the Enfield and Hanover towns do not join because back in the 1970's the Ledyard Bank of Hanover wanted to open a branch in Enfield, but were prevented from doing so.

The reason given for this denial was do to a law that stated a bank could not expand into an abutting town unless those towns are continuous. Therefore, the folks who believe this story insist that Enfield and Hanover do not abut, share a common boundary, or join in anyway.

This story is not true. Enfield and Hanover do join at a common corner, along with the towns of Lebanon and Canaan at a point on Moose Mountain.

The facts regarding a bank from Hanover trying to expand into Enfield are as follows:

The Ledyard Bank was established in 1991, so it did not even exist in the 1970's. Some of the original Ledyard Bank board of directors where part of a bank known as the Dartmouth National Bank. The Dartmouth National Bank became inactive in 1989.

I contacted some of the early Ledyard Bank Board of Director members who were involved with the Dartmouth National Bank. They do recall that the Dartmouth National Bank wanted to expand into Enfield, but do not recall the details regarding why this expansion never took place. They did mention that the banking laws at that time were very restrictive.

The state banking law that regulates how a bank can expand is RSA 384.

During the 1970's, RSA 384-B:1 Definitions stated;

1X. "Contiguous town" means any incorporated town or city any part of the boundaries of which are contiguous to any part of the boundaries of the town or city in which the principal office of a bank is located.

384-B:2 Branch Offices. No bank or officer, director, agent or employee thereof shall transact any part of its usual business of banking at any branch office except as follows:

1. With the approval of the board, any bank may (a) establish and operate one or more branch offices within the town in which its principal office is located; (b) establish and operate one or more branch offices within any contiguous town, provided there is not in existence on the effective date of this act and still operating any bank or national bank located in such contiguous town; (c) establish and operate a branch office within any noncontiguous town any part of which is within a radius of fifteen miles of its principal office, provided no bank or national bank in existence on the effective date of this act and still operating is located anywhere in this state within a radius of ten miles of the location of any such proposed branch office.

## **Historical Time Line:**

February 1976

The Hanover Bank and Trust talked to the Planning Board about opening a bank in Enfield.  
No further action was taken.

August 1976

The National Bank of Lebanon received Site-Plan approval to open a bank at the corner of Rt. 4 and Main St. The building used is the current Enfield hardware store.

1977

The Mascoma Savings Bank opened a branch in Enfield.

1985

National Bank of Lebanon changes its name to First NH Bank of Lebanon.

1987

Hanover Bank and Trust becomes inactive.

1989

Dartmouth National Bank becomes inactive and is merged into Fleet Bank.

1991

First NH Bank of Lebanon becomes inactive and is merged into Citizens Bank.

1991

Ledyard National Bank is formed.

# STATE OF NEW HAMPSHIRE

RSA

## CHAPTER 51

### TOWN LINES AND PERAMBULATION OF BOUNDARIES

**51:2 Perambulation of Town Lines.** – The lines between the towns in this state shall be perambulated, and the marks and bounds renewed, once in every 7 years forever, by the selectmen of the towns, or by such persons as they shall in writing appoint for that purpose.

**51:4 Return.** – A return of the perambulation shall be made, particularly describing the courses and distances and the marks and monuments of such line, which shall be signed by the selectmen or persons making the same, recorded in the respective town books, and filed with the secretary of state.

## Summary of the Enfield/Lebanon Perambulation Reports

### Bound #1      Enfield/Lebanon/Plainfield Corner

#### 1847

South/east corner bound of Lebanon and the south/west corner of Enfield. Which we renewed.

#### 1854

Begin at a stake and stones being the south/east corner of Lebanon and the south/west corner of Enfield and **erected a pine post in the place where the old one stood and marked the same L.E. [names] 1854 which is established as the corner of said towns.** [Signed by a surveyor]

#### 1861

Beginning at a pine post and stones being the south/east corner of Lebanon and the south/west corner of Enfield and marked the same [names] 1861 which is established as the corner of said towns.

#### 1868

Beginning at a pine post and stones being the south/east corner of Lebanon and south/west corner of Enfield and marked the same [names] 1868 which is established as the corner of said towns.

#### 1875

Beginning at a pine post and stones being the south/east corner of Lebanon and the south/west corner of Enfield and marked the same [names] 1875 which is established as the corner of said towns.

#### 1882

Met at the south/east corner of Lebanon and the south/west corner of Enfield being a post and stones.

#### 1889

At the south/east corner of Lebanon and the south/west corner of Enfield said corner being a post and stones.

#### 1903

Beginning at a post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E with various other marks.

#### 1910

Beginning at a **granite** post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E with various other marks.

#### 1917

Beginning at a granite post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E **and an iron pin in the top of said post.**

**1924 [typed print]**

Beginning at a granite post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E and an iron pin in the top of said post.

**2005**

On north side of Methodist Hill Rd., at junction of Enfield, Lebanon, & Plainfield boundaries, an iron pin in granite post set on concrete pad. Post has beveled top with chiseled "L" on north side and chiseled "E" on south side. No "P" visible. Post appears to have been reset 90 degrees off of proper orientation (perhaps when set in concrete?). Newer, roughly carved "E" and "L" appear on east and west sides, respectively, of same post. Exposed post measures 18.5" from concrete base to top, and is 7" x 6.5" around. Plug-and-feather stonecutting method evident: round holes were drilled every 6" or so along break line.

## **Bound #2**

**1847**

Renewing the ancient marks and monuments.

**1854**

A Beech tree standing on the south side of the road leading east from [Eldridges?] house.

**1861**

A stone on the east side of the road leading from the [Eldridge?] road to Union Meeting House marked L + E.

**1868**

A stone on the east side of the road leading from [Benjamin Woods?] to Union Meeting House marked L + E.

**1875**

A stone on the east side of the road leading from the house formerly owned by [Benjamin Wood?] to Union Meeting House in Enfield marked L + E.

**1882**

Constructed a bound of stones and stake by the side of a Beech tree standing on the south side of the old road leading past the [Guar Eldridge?] farm to [Jonathan + Natharriel Sargents?] – being the same Beech tree described in the return of the perambulation of 1854.

**1889**

A stone on the east side of the road leading from the house formally owned by [Benj Wood?] to the Union Meeting House in Enfield.

**1903 to 1924**

No mention.

**2005**

On east side of old road (Durkee, Class VI), a 1" diameter iron pipe (hollow) in stone pile. Exposed pipe 34" high. Next to pipe is an upright slate or shale wedge, 12" high x 2.5" thick x 9.5" wide, with carved "L" and "E" on west and east sides, respectively.

### **Bound # 3**

**1847**

Renewing the ancient marks and monuments.

**1854**

No mention.

**1861**

To a stone on the south side of the road leading from [Guar Eldridge?] to [J.B. Sargent?]

**1868**

To a stone on the south side of the road leading from [Guar Eldridge?] to [J.B. Sargent?]

**1875**

To a stone on the south side of the road leading from [Thomas Haugh?] to [J.B. Sargent?] marked L + E.

**1882**

No mention.

**1889**

To a stone on the south side of the road leading from the house formerly owned by [Thomas Haugh?] to the [J.B. Sargent?] place.

**1903**

To a stone surrounded by other stones on the south side of the road leading from [E. l. Bardins?] to [J. B. Sargents?] near which bound we placed a stake with 4 hacks on opposite sides.

**1910**

To a stone surrounded by other stones on the south side of the road leading from [E.L. Bardins?] to [B.J. McC?] near which bound is a stake on which we marked the figures 1910.

**1917**

To a stone surrounded by other stones on the south side of the road leading from the [E.L. Bardins?] farm now occupied by [Bliss Forbush?] to the [B. J. McCallister?] farm in which bound is a stake marked 1910 by the side of which we placed an iron pipe.

**1924 [Verbatim of 1917 report]**

To a stone surrounded by other stones on the south side of the road leading from the E. C. Barden farm now occupied by Bliss Forbush to the B. F. McCollister farm in which bound is a stake marked 1910 by the side of which we placed an iron pipe.

**2005**

No mention

**Bound #4**

**1847**

Renewing the ancient marks and monuments.

**1854**

A poplar tree on the hill nearly opposite [Dutton?] house.

**1861**

To a Poplar tree on the hill opposite [S. Hartins?] house.

**1868**

To a Poplar tree on the hill west and nearly opposite of [S. Hartins?] house.

**1875**

To a stake and stones on the hill west and nearly opposite [Simon Hartens?] house.

**1882**

No mention.

**1889**

To a stake and stones on the hill west and nearly opposite to [Simon Hartons?] house.

**1903**

To a stone with stones around it on the hill opposite the Horton place. Now owned by H. A. Follensbee – building now burned. - Bound renewed by stake with 5 hacks on opposite sides.

**1910**

No mention.

**1917**

To a stone with stones around it on the hill opposite the Horton place, now owned by H. A. Follensbee, building burned, bound renewed by an iron pipe.

**1924 [Verbatim of 1917 report]**

To a stone with stones around it on the hill opposite the Horton place. Now owned by H. A. Follensbee, building burned, bound renewed by an iron pipe.

**2005**

No mention

**Bound # 5**

**1847**

Renewing the ancient marks and monuments.

**1854**

No mention.

**1861**

No mention.

**1868**

No mention.

**1875**

To a stake and stones on the southerly side of Stony Brook opposite the south end of [?] saw mill.

**1882**

No mention.

**1889**

To a stake and stones on the southerly side of Stony Brook opposite the south end of [?] saw mill.

**1903**

To a hemlock stake and stones on the southerly side of Stony Brook opposite the south end of [Gavis?] sawmill.

**1910**

To a hemlock stake and stones on the southerly side of Stony Brook opposite the south end of the foundations where formerly stood [Joslins?] sawmill.

**1917**

Unreadable.

**1924**

To a stake (Maple) with 5 hacks and stones on the southerly side of Stony Brook about two rods south of the bridge.

**2005**

No mention

**Bound # 6**

**1847**

Renewing the ancient marks and monuments.

**1854**

A stake and stones on the northerly side of Stony Brook road so called.

**1861**

To a stake and stones on the north side of Stony Brook road.

**1868**

To stake and stones on the north side of Stony Brook road.

**1875**

To a stake and stones on the north side of Stony Brook road (about three (3) rods from said road.)

**1882**

No mention.

**1889**

To a stake and stones on the north side of Stony Brook and about (three) rods from said road.

**1903**

To a stake and stones on the northerly side of the Stony Brook road and about 3 rods back from said road.

**1910**

To a stake and stones on the northerly side of the Stony Brook road and about 2 rods back from said road, said bound renewed by a peeled hemlock post with hacks on opposite sides.

**1917**

Unreadable.

**1924**

To a peeled hemlock post with hacks on opposite sides on the northerly side of the Stony Brook road and about 2 rods back from said road.

**2005**

No mention

**Bound #7**

**1847**

Renewed the ancient marks and monuments.

**1854**

A stake and stones a little over the hill above [Nilson Giles?] house.

**1861**

To a stake and stones on the hill above [Hirum Purmonts?] house.

**1868**

To a stake and stones on the hill north of [Hirum Purmonts?] house.

**1875**

To a stake and stones on the hill north of the house of the late [Hirum Purmonts?].

**1882**

No mention.

**1889**

To a stake and stones on the hill northerly of the house of the late [Hirum Purmont?].

**1903**

To an ash stake with 2 hacks on opposite sides and stones around it standing on the hill northerly from [Hirum Purmont?] and about 48 ft. south/west from a spruce tree.

**1910**

To an ash stake and stones around it standing on the hill northerly from [Norman Wilsons?] and about 48 ft. south/west from a spruce tree.

**1917**

To a pile of stones in which we placed an iron pipe standing on the hill northerly from [Henry Monast?] and about 48 ft. south/west from a spruce tree.

**1924 [Verbatim of 1917 report.]**

To a pile of stones in which we placed an iron pipe standing on the hill northerly from Henry Monast and about 48 ft. south/west from a spruce tree.

**2005**

No mention

## **Bound # 8**

**1847**

Renewed the ancient marks and monuments.

**1854**

A stake and stones on the south side of Enfield Pond.

**1861**

To a stake and stones on the south side of Enfield Pond.

**1868**

To a stake and stones on the south side of Enfield Pond.

**1875**

To a stake and stones on the south side of Enfield Pond.

**1882**

No mention.

**1889**

To a stake and stones on the south side of Enfield Pond.

**1903**

Over the hill to a stake and stones standing on the southerly side of Mascoma Lake. Northerly from the bridge on the road leading southerly to Shaker Village and near the shore of the lake.

**1910**

Over the hill to a stake and stones standing on the southerly side of Mascoma Lake. Northerly from the bridge on the road leading southerly to Shaker Village and near the shore of the lake.

**1917**

Over the hill to an iron pipe on the upper side of the road about 10 paces northerly from the bridge on the road leading southerly to Shaker Village.

**1924**

Over the hill to an iron pipe on the upper side of the road about 10 paces northerly from the bridge on the road leading southerly to Shaker Village.

**2005**

Bound #8 (as described in 1924): Not found

## **Bound # 9**

**1847**

Renewed the ancient marks and monuments.

**1854**

And also on the north side of said pond and between that and the northern railroad.

**1861**

And also on the north side of said pond and between that and the northern railroad.

**1868 to 2005**

No mention.

## **Bound # 10 Enfield/Lebanon/Hanover/Canaan Corner**

**1847**

**To the charter bound**, being the north/east corner of Lebanon and the north/west corner of Enfield **being a stake and stones marked L+E.**

**1854**

To an oak stake with stones about it being the north/east corner of Lebanon and the north/west corner of Enfield and marked L.E. W.G.P. U.P. 1854. [Signed by a surveyor.]

**1861**

To an oak stake and stones around it being the north/east corner of Lebanon and the north/west corner of Enfield at which corner of said towns **we erected a cedar post and marked the same [names] L.+ E. 1861.**

**1868**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield and we marked said cedar post [names] 1868.

**1875**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield.

**1882**

To the north/east corner of Lebanon and the north/west corner of Enfield.

**1889**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield.

### **1903**

Across said lake **to a cedar post supported by a spruce stake and surrounded by stones.** Standing in the north/east corner of Lebanon and the north/west corner of Enfield **marked L+E with various other marks. And being the established corner of the four towns Lebanon, Enfield, Canaan, and Hanover. Said bound stands near a fence and a large [maple], oak tree.**

### **1910**

Across said lake **to a granite post marked L, H, C, E,** standing in the north/east corner of Lebanon and the north/west corner of Enfield. And being the established corner of the four towns Lebanon, Enfield, Canaan, and Hanover. Said bound stands near a fence and a large maple tree.

### **1917**

Across Mascoma Lake to a granite post marked L, H, C, E, standing in the north/east corner of Lebanon and the north/west corner of Enfield. And being the established corner of the four towns Lebanon, Enfield, Canaan, and Hanover. Said bound stands near a board fence and a large maple tree.

### **1924**

Across Mascoma Lake to a granite post marked L. H. C. E. standing in the north/east corner of Lebanon and the north/west corner of Enfield and being the established corner of the four towns, Lebanon, Enfield, Canaan, and Hanover, said bound stands near a board fence and a large maple tree.

### **2005**

Bound #10 (as described in 1910, 1917, and 1924): At elevation 395m, located stone pile with plug-and-feather granite post, 6" by 7" around and measuring 38" high. Carved "H" and "C" appear on appropriate sides for Hanover and Canaan, respectively. Carved "L" for Lebanon appears on wrong side, above "E" for "Enfield", which is on appropriate side of post. Overall, letters "L" and "H" appear to be more recent.

## Summary of the Enfield/Canaan Perambulation Reports

### **Bound #1      Enfield/Canaan/Grafton Corner**

#### **1875**

... a stake standing on Grafton line marked E and C 1875.

#### **1882**

... a stake standing in the wall on the Grafton line at the southeast corner of Canaan and northeast corner of Enfield.

... said stake(s) are marked 1882 and various letters.

#### **1886**

#### **Survey and establishment of line between Enfield & Canaan**

By agreement the selectmen of Canaan and Enfield met at Black Water Bridge in Canaan on thirteenth day of December 1886 and proceeded to perambulate the line between said towns and erect permanent stone monuments at all points in said line where a highway passes from one of said towns to the other and establish the same as follows.

Beginning at Grafton hill station (described in above survey of said line by C.M. Pattee surveyor) at a locus stake marked or spotted on north south and west sides with stones piled around said stake;

Thence N 52 3/4<sup>0</sup> W to a stake and stones standing in the westerly line of Grafton, and established as the east bound between Canaan and Enfield,

#### **1895**

Beginning at Grafton hill station at a locust stake marked or spotted on both sides

#### **1902**

We found the course to be N 52 3/4<sup>0</sup> W. Beginning at Grafton Hill Station at a locus stake marked or spotted on both sides

#### **1909**

We found the course to be N 52 3/4<sup>0</sup> W beginning at Grafton Hill Station and at a stone post in the wall about 40 rods north easterly from the Awah Sterns barn

#### **1924**

Met at Grafton hill station so called being the corner between Canaan and Enfield being a stone post marked on both sides

#### **1932**

Bound No. 1 - Beginning at a stone post set in the ground it being the north easterly corner of Enfield and the south-easterly corner of Canaan and on the Grafton town line said bound being marked E.-G.-and C; thence north-westerly in a straight line to the following bounds.

**1939**

Bound No. 1 - Beginning at a stone post set in the ground it being the north easterly corner of Enfield and the south-easterly corner of Canaan and on the Grafton town line said bound being marked E.-G.-and C; thence north-westerly in a straight line to the following bounds.

**1940**

Bound No. 1 - Beginning at a stone post set in the ground it being the north easterly corner of Enfield and the south-easterly corner of Canaan and on the Grafton town line said bound being marked E.-G.-and C;

**2006**

Bound No. 1 - Granite post measuring 4.5" X 6.5" X 43" high, and is located in a stonewall that runs along the Enfield/Grafton and the Canaan/Grafton town lines. This granite post marks the northeast corner of Enfield, and the southeast corner of Canaan.

**Bound # 2**

**1886**

Thence N 52 3/4<sup>0</sup> W to the road leading by David Stevens, where we erected a stone monument in said line,

**1895**

And we found the course to be N 52 3/4<sup>0</sup> W. And we found stone bounds set on David Stevens Road.

**1902**

Stone bound set on David Stevens road

**1909**

Stone bound set on David Stevens road

**1923**

Stone bound on David Stevens road

**1932**

Bound No. 2 - Stone bound on road from Hazen farm to Elmer Wescott near gap in stone wall on south side.

**1939**

Bound No. 2 - Stone bound on road from Hazen farm to Elmer Wescott near gap in stone wall on south side.

**1940**

Bound No. 2 - Stone bound on road from Hazen farm to Elmer Wescott near gap in stone wall on south side.

**2006**

Bound No. 2 - Granite post measuring 6" X 8" X 7" high, located on westerly side of the Class VI road called Chebacco Rd. in Enfield, and the discontinued portion of the road called Wescott Rd. in Canaan.

**Bound # 3**

**1886**

Thence in same point of compass to potato Road (so called) where we erected a stone monument in said line,

**1895**

Potato Road

**1902**

Stone bound set on Potato Road

**1909**

Stone bound set on Potato Road

**1923**

Stone bound on Potato Road

**1932**

Bound No. 3 - Stone bound on potato road so called about 35 feet north of stone bridge and being on westerly side of highway.

**1939**

Bound No. 3 - Stone bound on potato road so called about 35 feet north of stone bridge and being on westerly side of highway.

**1940**

Bound No. 3 - Stone bound on potato road so called about 35 feet north of stone bridge and being on westerly side of highway.

**2006**

Bound No. 3 - **Concrete post** measuring 5" X 6" X 41" high, located on the westerly side of Potato Rd.

**Bound # 4**

**1886**

Thence in same course to the road leading by Nath Howes home farm where we erected a stone monument in said line,

**1895**

highway leading by Nathaniel Howe

**1902**

Highway leading by Nathaniel Howe farm

**1909**

Highway leading by David Noyes

**1923**

Highway leading by Nathaniel Howe

**1932**

Bound No. 4 - Wooden post set in stone wall near bar-way on westerly side of Frank Leach so called.

**1939**

Bound No. 4 - Wooden post set in stone wall near bar-way on westerly side of Frank Leach so called.

**1940**

Bound No. 4 - Wooden post set in stone wall near bar-way on westerly side of Frank Leach road so called.

**2006**

Bound No. 4 - Granite post measuring 7" X 7" X 31" high, located on westerly side of Choate Rd. (Formerly called Leach Rd.)

**Bound # 5**

**1886**

Thence north **53 1/2<sup>0</sup>** west to the highway leading from Canaan to Enfield by the S. B. Pattee farm where we erected a stone monument in said line,

**1895**

Highway leading by S. B. Pattee farm

**1902**

Highway leading by S. B. Pattee farm

**1909**

Highway leading by S. B. Pattee farm

**1923**

Highway leading by the S. B. Pattee farm

**1932**

Bound No. 5 - Stone bound on Ibey road so called north of Shepard house and on westerly side of highway.

**1939**

Bound No. 5 - Stone bound on Ibey road so called north of Shepard house and on westerly side of highway.

**1940**

Bound No. 5 - Stone bound on Ibey road so called north of Shepard house and on westerly side of highway.

**2006**

Bound No. 5 - No monument was found on Ibey Rd.

**Bound # 6**

**1886**

Thence in same course to the highway leading from West Canaan to East Enfield where we erected a stone monument in said line,

**1895**

Highway leading from West Canaan to East-Enfield

**1902**

Highway leading from West Canaan to Lockehaven

**1909**

Highway leading from West Canaan to Lockehaven

**1923**

Highway leading from West Canaan to East Enfield

**1932**

Bound No. 6 - Stone bound on easterly side of Lockhaven road so called.

**1939**

Bound No. 6 - Stone bound on easterly side of Lockhaven road so called.

**1940**

Bound No. 6 - Stone bound on easterly side of Lockhaven road so called.

**2006**

Bound No. 6 - Granite post measuring 5" X 7" X .5" high, located on the easterly side of Mud Pond Rd. This monument is less weathered than the other monuments we found that day, but has similar weathering to the monument on West Farms Rd.

**Bound # 7**

**1886**

Thence in same course to the highway leading across Jones Hill (so called) where we erected a stone monument in said line,

**1895**

Highway leading across Jones Hill (so called)

**1902**

Highway leading across Jones Hill (so called)

**1909**

Highway leading over Jones Hill (so called)

**1923**

Highway leading across Jones Hill (so called)

**1932**

Bound No. 7- Stone bound on west side of Jones Hill road and about 20 rods south of Henderson Farm.

**1939**

Bound No. 7- Stone bound on west side of Jones Hill road and about 20 rods south of Henderson Farm.

**1940**

Bound No. 7- Stone bound on west side of Jones Hill road and about 20 rods south of Henderson Farm.

**2006**

Bound No. 7 - Granite post measuring 5" X 7" X 15 1/2" high, located on the westerly side of Jones Hill Rd.

**Bound # 8**

**1886**

Thence in same course to the highway near by and south west of Black Water Bridge (so called) where we erected a stone monument in said line,

**1895**

Highway near by and south west of Black Water Bridge

**1902**

Highway near by and south west of Black Water Bridge

**1909**

Highway nearby and south west of Black Water Bridge

**1923**

Highway nearby and south west of Black Water Bridge

**1932**

Bound No. 8 - State highway at Black Water Bridge it being a wooden marker with Canaan on one side and Enfield on the other side.

**1939**

Bound No. 8 - State highway at Black Water Bridge it being a wooden marker with Canaan on one side and Enfield on the other side.

**1940**

Bound No. 8 - State highway at Black Water Bridge it being a wooden marker with Canaan on one side and Enfield on the other side.

**2006**

No mention

**Bound # 9**

**1886**

Thence in same course to the highway leading from West Farms to West Canaan where we erected a stone monument in said line,

**1895**

Highway leading from West Farms to West Canaan

**1902**

Highway leading from West Farms to West Canaan

**1909**

Highway leading to West Farms from West Canaan

**1923**

Highway leading to West Farms from West Canaan

**1932**

Bound No. 9 - Stone bound on easterly side of West Farms to West Canaan road and about (?) feet from telephone post.

**1939**

Bound No. 9 - Stone bound on easterly side of West Farms to West Canaan road and about 50 feet from telephone post.

**1940**

Bound No. 9 - Stone bound on easterly side of West Farms to West Canaan road and about 59 feet north from telephone post.

**2006**

Bound No. 9 - Granite post measuring 5" X 7" X 10" high. There is a 1 1/2" hollow pipe located on the backside of the granite post. This granite post is located on the southwesterly side of West Farms Rd. 45 ft. +/- from telephone pole GSE Co. 2, NET + T Co. 2, and 242 ft. +/- from the intersection of West Farms Rd. and RT 4.

**Bound # 10**

**1886**

Thence in same course to the highway leading from Enfield to the new road (so called) to last described road where we erected a stone monument in said line,

**1895**

Highway leading from Enfield by new Road so called

**1902**

Highway leading from Enfield by new Road (so called) to West Farms

**1909**

Highway leading from Enfield by new Road (so called) to West Farms

**1923**

Highway leading from Enfield to New Road on Davis Hill so called

**1932**

Bound No. 10 - Stone bound on southerly side of West Farms to Enfield road.

**1939**

Bound No. 10 - Stone bound on southerly side of West Farms to Enfield road.

**1940**

Bound No. 10 - Stone bound on southerly side of West Farms to Enfield road.

**2006**

Bound No. 10 - Granite post measuring 6.5" X 8.5" X 36" high, located on the old woods road that goes from West Farms Rd. to the Mascoma Valley Regional School District SAU driveway. The old woods road is located 456 ft. +/- from the intersection of RT. 4 and West Farms Rd. The granite post is located 385 ft. +/- from the West Farms Rd. and the old woods road intersection.

**Bound # 11**

**1886**

Thence in same course to Davis Hill Road (so called) where we erected a stone monument in said line,

**1895**

Davis Hill Road so called

**1902**

Davis Hill road

**1909**

(Davis Hill Road)

**1932**

Bound No. 11 - Stone bound on westerly side of old road between Walter Foster's and Arthur Lapan's.

**1939**

Bound No. 11 - Stone bound on westerly side of old road between Walter Foster's and Arthur Lapan's.

**1940**

Bound No. 11 - Stone bound on westerly side of old road between Walter Foster's and Arthur Lapan's.

**2006**

Bound No. 11 - Granite post measuring 6" X 6" X 18" high, located on the Class VI road called Lindopp Lane, 963 ft. +/- from Rt. 4, and 45 ft. from the center of the stonewall.

**Bound # 12**

**1886**

Thence in same course to the highway leading from Enfield to Lovejoy Saw Mill (so called) where we erected a stone monument in said line,

**1895**

Highway leading from Enfield to Lovejoy Saw Mill (so called)

**1902**

Highway leading from Enfield to Lovejoy Mills (so called)

**1909**

Highway leading from Enfield to Lovejoy Mills (so called)

**1923**

Highway leading form Enfield to Lovejoy Hill

**1932**

Bound No. 12 - Stone bound on easterly side of Brook road so called south of Whittemore pasture barway.

**1939**

Bound No. 12 - Stone bound on easterly side of Brook road so called south of Whittemore pasture barway.

**1940**

Bound No. 12 - Stone bound on easterly side of Brook road so called south of Whittemore pasture bar-way.

**2006**

Bound No. 12 - Granite Post measuring 8" X 10" X 23" high, lying almost flat to the ground, located on easterly side of Lovejoy Brook Rd. There is a 1 1/4" hollow pipe located 5 ft. away from the granite post, and a 2" hollow pipe located 13 ft. away.

**Bound # 13**

**1886**

Thence in same course to highway leading from Enfield by the John Stevens farm to West Farms (so called) where we erected a stone monument in said line,

**1895**

Highway leading from Enfield to John Stevens farm (so called)

**1902**

Highway leading from Enfield to John Stevens farm

**1909**

Highway leading from Enfield to John Stevens farm so called

**1923**

Highway leading from Enfield to John Stevens farm so called

**1932**

Bound No. 13 - Stone bound on left side of May St. between Masures and Wilfred Blains going toward Blains.

**1939**

Bound No. 13 - Stone bound on left side of May St. between Masure's and Wilfred Blain's going toward Blain's.

**1940**

Bound No. 13 - Stone bound on left side of May St. between Masure's and Wilfred Blain's going toward Blain's.

**2006**

Bound No. 13 - No monument was located on May St.

**Bound # 14**

**1886**

Thence in same course to highway near H. Halls (?) house where we erected a stone monument in said line,

**1895**

And highway near T. Halls house

**1902**

Highway leading from Enfield to William Harris farm (so called)

**1909**

Highway leading from Enfield to William Harris farm (so called)

**1923**

Highway near F Halls house

**1932**

Bound No. 14 - Stone bound on Maple St. it being on left side of road between Cross's barn and O. B. Brown farm.

**1939**

Bound No. 14 - Stone bound on Maple St. it being on left side of road between Cross's barn and O. B. Brown farm.

**1940**

Bound No. 14 - Stone bound on Maple St. it being on left side of road between Cross's barn and O. B. Brown farm.

**2006**

Bound No. 14 - granite post measuring 5 1/2" by 12" by 39" high, located on Maple St. (Enfield) and Moose Mountain Rd. (Canaan).

## **Bound # 15 Enfield/Canaan/Lebanon/Hanover Corner**

### **1875**

We began at the northwest and southwest corner of said towns at a post marked E and C 1875. Which is established as the corner bound.

### **1882**

...at a stake in a pile of stones at the southwest corner of Canaan and the northwest corner Enfield.

### **1886**

Thence in same course to a stake and stones which is established corner bound between the towns of Lebanon, Hanover, Canaan and Enfield.

### **1895**

Thence on same course to a stake and stones which is the established corner between the Town of Lebanon Hanover Canaan and Enfield.

And we found the above described bounds all in their established places.

### **1902**

Thence on same course to a stake and stones which is the established corner between the Town of Lebanon Hanover Canaan and Enfield.

And we found the above described bounds all in their established places.

### **1909**

Thence on same course to a stake and stones which is the established corner between the Town of Lebanon Hanover Canaan and Enfield.

And we found the above described bounds all in their established places.

### **1923**

Thence on same course to a stake and stones which is the established corner between the Town of Lebanon Hanover Canaan and Enfield.

And found all bounds in their proper places.

### **1932**

Bound No. 15 - **stone bound** on old road in James Eastman pasture being about 15 rods north-east of said road near a large maple being the corner of Enfield, Canaan, Lebanon and Hanover and marked E.-C.-L.-and H.

### **1939**

Bound No. 15 - stone bound on old road in James Eastman pasture being about 15 rods north-east of said road along a barb wire fence near a large maple and two beech trees being the corner of Enfield, Canaan, Lebanon and Hanover and marked E.-C.-L.-and H.

**1940**

Bound No. 15 - stone bound on old road in James Eastman pasture being about 15 rods north-east of said road along barbed wire fence near a large maple and two beach trees, being the corner of Enfield, Canaan, Lebanon and Hanover and marked E.-C.-L.-and H.

**Meaning that the above described line is a straight line between Canaan and Enfield from stake and stones standing in the westerly line of Grafton to a stake and stones standing in the corners of Lebanon, Hanover, Canaan and Enfield.**

**2006**

Bound No. 15 - a granite post measuring 6" by 7" by 38" high, located at the corner of Enfield/Canaan/Lebanon and Hanover, and is the Northwest corner of Enfield and the southwest corner of Canaan.

## Summary of the Enfield/Grafton Perambulation Reports

### Bound #1      Enfield/Grafton/Canaan Corner

#### **1868**

Beginning at a hard wood post and stones being the northeast corner of Enfield in Grafton line and marked the same A. L. and J. S. 1868.

#### **1875**

Beginning at the northeast corner bound of Enfield and southeast corner of Canaan in Grafton line at a stake and stones marked E 1875 C.L.C. and G 1875 A.S.

#### **1882**

Beginning at the northeast corner of said Enfield and Grafton, northwest corner which is a stake standing in stonewall marked 1882

#### **1889**

Beginning at a stake set in the wall at the northeast corner of said Enfield and marked E 1889 E. A. W. G. J. H. W. which is established as the corner bound between said towns

#### **1896**

Beginning at a stake set in the wall at the northeast of said Enfield and marked E 1896 L. W. C. G. B. F. W. which is established as the corner bound between said towns

#### **1903**

**Beginning at a stone post set in the ground about four feet east from the stone wall where the original bound should be** at the north east corner of said Enfield and marked on the east G T L 1903 on the south E and on the west C which is established as the corner bound of Enfield and Canaan and on the Grafton line.

#### **1910**

Beginning at a stone post set in the ground about four feet east from the stone wall where the original bound should be at the north east corner of said Enfield and marked on the east G T L 1910 on the south E and on the west C which is established as the corner bound of Enfield and Canaan and on the Grafton line.

#### **1917**

Beginning at a stone post set in the ground about four feet east from the stone wall where the original bound should be at the north east corner of said Enfield and marked E and G 1917 M and B which is established as the corner bound of Enfield and Canaan and on the Grafton line

#### **1924**

Beginning at a stone post set in the ground about four feet east from the stone wall where the original bound should be at the north east corner of said Enfield and marked E and G 1924 which is established as the corner bound of Enfield and Canaan and on the Grafton line

**1932**

Beginning at a stone post set in the ground at a stone wall, it being the northeasterly corner of Enfield and the southeasterly corner of Canaan and on the Grafton town line said bound being marked E. G. C.

**1939**

Beginning at a stone post set in the ground at a stone wall, it being the northeasterly corner of Enfield and the southeasterly corner of Canaan and on the Grafton town line said bound being marked E. G. C.

**1946**

Beginning at a stone post set in the ground at a stonewall it being the northeasterly corner of Enfield and the southeasterly corner of Canaan and on the Grafton line said bound being marked E, G, C:

**1958**

Beginning at a stone post set in a stone wall, said post marked T L E G C and stone marked 58, it being the northeasterly corner of Enfield and the southeasterly corner of Canaan, and on the Grafton town line;

**2007**

The granite post is 4.5" by 6.5" by 43" high with multiple strands of barbwire wrapped around it, with the town initials carved into it.

**Bound # 2****1958**

Thence southwesterly to an approximate bound consisting of a tree marked T L E G on north side of private road along the east side of Spectacle Pond;

**2007**

We then followed the same compass bearing S 32<sup>0</sup> W to the edge of Spectacle Pond. The Town Line crosses a Private Road called Lewin Road, and then crosses the yard of a house/camp just southeast of telephone pole number GSE Co. #9 and NET+T Co. #9. There is no house number attached to this house/camp, but the house/camp next to it is house #102.

In the front yard of house #102, there is a stone post that looks like a town line marker. This post was placed there by the current owner Mr. Snell, as a gate post; it is not a boundary marker.

**Bound # 3****1958**

Thence on same course to stake and stones marked T L E G 58 at intersection of stonewalls on north side of Blood Road, so called;

**2007**

We then followed the red blazes marking the SPNHF Heffenreffer Property boundary line to Blood Road/Goss Lane.

#### **Bound # 4**

##### **1932**

Stone with pile of stones on the westerly side of the Potato Road leading to Grafton Pond marked T. L.

##### **1939**

Stone with pile of stones on the westerly side of the Potato Road leading to Grafton Pond marked T. L.

##### **1946**

Stone with pile of stones on the westerly side of the Potato Road leading to Grafton Pond marked T L

##### **1958**

Thence on same course to stone with pile of stones on west side of Potato Road leading to Grafton pond marked T L E G 58;

##### **2007**

When we reached Potato Road, the Grafton Town Line highway sign was about 15 to 20 feet to the east of where we crossed the road.

Along the westerly side of Potato Road, and at the base of the Grafton Town Line Highway sign, there is a 1.5" hollow pipe, up 15", set in a pile of stones.

#### **Bound # 5**

##### **1932**

On the northerly side of the road leading from Winship Corner in Enfield to Banks Pinacle in Grafton a post with pile of stones beside a boulder marked T. L. in the easterly side of the 4<sup>th</sup> NH Turnpike

##### **1939**

Post with stone pile beside a boulder marked T L on the northerly side of the road leading from Winship corner in Enfield to Bank's Pinnacle in Grafton;

##### **1946**

on the northerly side of the road leading from Winship corner in Enfield to Bank's Pinacle in Grafton post with pile of stone beside a boulder marked T L on the easterly side of the Fourth N. H. Turnpike.

##### **1958**

Thence on same course stone and pile of stones marked T L E G 58 on north side of road from Winship corner in Enfield to Bank's Pinnacle in Grafton;

##### **2007**

No mention

## **Bound # 6**

### **1939**

A post with pile of stones beside a boulder marked T L on the easterly side of the 4<sup>th</sup>. N. H. Turnpike.

### **1958**

Thence on same course to state sign marked Enfield Grafton on east side of Route U.S. 4A;

### **2007**

We did not locate any kind of marker on either side of Rt. 4A. The Town Line crosses Rt. 4A just south of where the Town Line highway marker is located.

## **Bound # 7    Enfield/Grafton/Springfield Corner**

### **1868**

The line runs north 41 west to a stake and stones in James Jackmans pasture. It being the northeast corner of Enfield in Grafton line and marked the same A. L. and J. S. 1868.

### **1875**

Thence running on said line south 41<sup>0</sup> west to a stake and stones on the corner of Grafton, on the gore between Grafton and Springfield on Enfield line. Stake marked E. 1875 C.L.C. and G. 1875 A.S. which is established as the southwest corner of Grafton.

### **1882**

Thence south 41<sup>0</sup> west on line between said town of Springfield corner bound.

### **1889**

Thence south 41<sup>0</sup> west to a stake and stones in the pasture of James Jackman which is established as the southeast corner of said Enfield marked E. 1889 E. A. G. J. H. W.

### **1896**

Thence south 41<sup>0</sup> west to a stake and stones in the pasture of James Jackman which is established as the southeast corner of said Enfield and marked E 1896 L. W. C. G. B.F.W. 1896

### **1903**

Thence south 41<sup>0</sup> west to a stake and stones in the pasture of James Jackman which is established as the southeast corner of said Enfield and marked E 1903 A. H. J. on the (?) side and G. 1903 (?) on the south side

### **1910**

Thence south 41<sup>0</sup> west to a stake and stones in the pasture of James Jackman which is established as the southeast corner of said Enfield and marked E W. F. H. 1910 on the west side and G. 1910 (?) on the south side

## Summary of the Enfield/Springfield Perambulation Reports

### Bound #1      Enfield/Springfield/Grafton Corner

#### 1861

... and running on said line north  $41^0$  east to stake and stones marked E & S 1861 C. L. C. & D. H. P. being the established corner bound between Springfield and Grafton on Enfield line.  
(Signed by Samuel Choate Surveyor)

#### 1868

We begun at the corner of Grafton and Springfield on Enfield line it being a spruce stake and marked the (names ?)

#### 1875

... And running on said line north  $41^0$  east to stake and stone marked E 1875 C.L.C. and G 1875 C.V.P. on Enfield line between Springfield and Grafton.

#### 1882

... and running on the said line north  $41^0$  east to stake and stones marked 1882 on Enfield line between Springfield and Grafton.

#### 1896

We began at the northeast corner of the town of Springfield at a stake and stones marked E + S which is established bound of said Springfield.

#### 1903

We began at the northeast corner of the Town of Springfield at a stake and stones that we marked C E B 1903, and A H J, E + S which is established as the corner bound of said Springfield.

#### 1910

We began at the northeast corner of said town of Springfield at a stake and stones that we marked 1910 C. E. B. and W. F. H. E + S which is established as the corner bound of said Springfield.

#### 1917

... the line then runs north about  $58^0$  east to the northeast corner of the town of Springfield at a stake + stones we marked 1917 E. + S. C. B. W. M.

#### 1924

... the line then runs north about  $58^0$  east to the northeast corner of the town of Springfield at a stake and stone we found marked 1917 E. + S. T. L. B. W. M.

#### 1932

... thence north  $47^0 50'$  east to a post and pile of stones it being a corner of the towns of Springfield and Grafton on the Enfield town line said post being marked E. G. S.

#### 1939

Beginning at a post and pile of stones in the pasture of Allen Jackman, it being the corner bound of the towns of Grafton and Springfield on the Enfield line, said post being marked E-G-S.

**1957**

Met at the northwesterly corner bound of the town of Springfield, at it's junction with the Enfield and Grafton town line: Said bound being a post marked E-S-G & 57, and set amid a pile of stones; it being the terminal of the Enfield-Grafton town line. Said being indicated by various portions of stone wall along the same. Said bound is located on land of the Jackman home farm, and is approximately 450 feet, more or less, northeasterly from the foundation of the old Jackman sugar house.

**2006**

The Enfield/Springfield and Grafton corner.

It being a 1" hollow pipe, 21" high, set in a pile of stones, with a 90<sup>0</sup> angled metal plate welded to the top of it. One of the base stones is a rectangular cut stone with 1901 chiseled into it, and C Z or 02 chiseled below it. The GPS reading for this monument was NAD 27, 0736646, 4826183, +/- 14 ft.

**Bound # 2****1903**

The stone monuments where the line crosses the highways are up and marked with the letters T L and E. S. and figures 1889.

**1910**

The stone monuments where the line crosses the highways are up and marked with the letters T L and figures 1910.

**1932**

Stone on the westerly side of the George Hill Road marked T. L. and 31.

**1939**

Stone post on the westerly side of the George Hill Road marked T L and 31.

**1957**

Stone post on the westerly side of the George Hill road, added marks T-L-57

**2006**

George Hill Rd. - South side of George Hill Rd., broken concrete post lying on the ground.

### **Bound # 3**

## Summary of the Enfield/Grantham Perambulation Reports

**1837**

**An Act to sever a certain tract of land from the town of Grantham and annex the same to Enfield.**

Be it enacted by the Senate and House of Representatives in General Court convened. That all that tract of land situated in the northeast corner of the town of Grantham, in the county of Sullivan, which is contained within the following limits, viz: Beginning at the northeast corner of said town of Grantham, thence on the dividing line between said Grantham and Springfield three hundred and eighty three rods to the southeast corner bound of lot No. twenty seven in said Grantham, thence westerly, parallel with the south line of Enfield four hundred and fifty rods, thence northerly parallel with the dividing line between Grantham and Springfield, three hundred and eighty three rods to the south line of said Enfield, to intersect the northwest corner of lot No. fifteen in Grantham, thence easterly on said Enfield south line, to the bound begun at, be and the same is hereby severed from the town of Grantham in the county of Sullivan and annexed to the town of Enfield in the county Grafton, and said territory shall hereafter constitute and be part of said town of Enfield and said county of Grafton.

**(The 1882 perambulation was rewritten to match the direction of travel of the 1875 perambulation)**

**(The 2005 perambulation party did not walk from monument to monument. They drove to the most convenient place to park, and then walk to the monument from the road.)**

**Kurt Gotthardt, Enfield perambulator**

**(Kurt Gotthardt spoke with Myron Cummings who was one of the 1990 Grantham Perambulators. Mr. Cummings stated he took the pictures of the Grantham corner monuments during the 1990 perambulation. [Some copies are available at the Grantham Town hall.] Mr. Cummings also stated, sometime in the early 1990's he replaced the "old post" with new 4" X 4" pressure treated post that have the names of the towns routed into them.)**

## **Bound # 1      Enfield/Grantham/Springfield Corner**

### **1854**

We began at a stake marked E. G. standing on Springfield line it being the south east corner of Enfield and the north east corner of Grantham

### **1875**

Beginning at stake and stones, stake marked E 1875 C.L.C. and G 1875 M.P.B. standing on Springfield line it being the southeast corner of Enfield and northeast corner of Grantham

### **1882**

... to a stake and stone on land formerly owned by Jeremiah Hersey stake marked (initials) 1875 (initials) 1882

### **1917**

The stake at the southeast corner of Enfield being new Nov 14, 1917 set by C.E Barley and (?) Morse

### **1918**

Starting at the S.W.(?) corner of Enfield and N.E. corner of Grantham being a stake and stone, the stake being new set Nov. 14, 1917 by L.E. Baily and W. L. Morse.

### **1925**

The line standing at the S.W. (?) corner of Enfield and the N.E. corner of Grantham being a stake and stone with a flat stone set up and marked E. on one side and G. on (?) marked by the Selectmen of Enfield and Springfield in the year 1924.

### **1932**

The line standing at the S.W. (?) corner of Enfield and N.E. corner of Grantham and being a stake and stones set in Nov. 1932 by the Selectmen of Springfield and Grantham.

### **1939**

Post with stones about, in wire fence, it being the corner bound of Grantham and Enfield on the westerly line of the town of Springfield. Said post is distant about 800 feet southwesterly from the new road leading from Washburn Corner toward Enfield Center.

### **1957**

Thence, the town line runs about south  $49^{\circ}45'$  east or parallel to the southerly line of Enfield to a post with stones about, in a wire fence, it being the corner bound of Grantham and Enfield and on the westerly line of the town of Springfield. Said post is marked E-G-S and is distant about 800 feet southwesterly from the "new road" leading from Washburn corner toward Enfield Center.

### **2005**

4"x4" 6-foot high engraved pine post marker...The maker is located in a fence row with considerable numbers of trees around it. The maker is at the base of a 2-foot diameter White Pine about 12 feet from a maple/spruce twosome that are taller than the surrounding trees.

## **Bound # 2**

### **1854**

Thence running north  $58^0$  west to a stake and stones standing on Jeremiah Hersey land

### **1875**

Thence running north  $58^0$  west to a stake and stones on land formerly owned by Jeremiah Hersey. Stake marked E + G 1875 C.L.C. + M.P.B.

### **1882**

Thence north  $58^0$  west to a stake and stone on land formerly owned by Jeremiah Hersey stake marked (initials) 1875 (initials) 1882

### **1917**

Going to the two bounds near the new road finding them up and in good condition the one near C H (?) farm being new in 1916 set by the Draper Co.

### **1918**

Thence running north  $58^0$  west to a stake and stones on the land formerly owned by Jeremiah Hersey, stake being set new in 1916 by Draper Co. marked corner of Enfield and Grantham.

### **1925**

Thence running north  $58^0$  to a stake and stones on the land formerly owned by Jeremiah Hersey, stake being set new in 1916 by Draper Co. marked corner of Enfield and Grantham.

### **1932**

Thence running north 58 degrees west to stake and stones on the land formerly owned by Jeremiah Hersey, also a flat stone set up edgewise marked E. on one side and G. on the other side said stake and stones being about 40 ft. east of a high cliff.

### **1940**

Post with stones set by Draper Company in 1925 and marks a corner of Enfield and Grantham. Said post is about 1300 feet easterly from the old Enfield Center-North Grantham Road at the old Strong Place and about 800 feet southwesterly from the intersection of the town line and Strong Brook.

### **1957**

Running by the westerly line of said set-off, about south  $50^0$  west (magnetic) to a post surrounded by stones and marked Draper SW cor. E. Said post is about 1300 feet easterly from the ancient Enfield Center-north Grantham Road at the old Strong place and about 800 feet southwesterly from the intersection of this town line and Strong Brook.

### **2005**

Follow the road to 16 Shore Drive. The maker will be next to the road and a large rock on the right side of the road. The marker is an engraved 4"x4" 6 foot engraved pine post

### **Bound # 3**

#### **1854**

Thence north  $41^0$  east to a birch tree marked E. G. standing on the old line between Enfield and Grantham

#### **1875**

Thence north  $41^0$  east to a birch tree marked E + G 1875. Standing on the old line Enfield + Grantham

#### **1882**

Thence running north  $41^0$  east to a birch stump supposing to stand on the old line Enfield + Grantham.

#### **1917**

Not being able to find the other two corners

#### **1918**

Thence north  $41^0$  east to a stake and stones set by Draper Co. in 1916, marked S.W. corner of Enfield, standing in the old line of Enfield and Grantham.

#### **1925**

Thence north  $41^0$  east to a stake and stones set by Draper Co. in 1916, marked S.W. corner of Enfield, standing in the old line of Enfield and Grantham a flat stone was set beside the above stake and stone marked E on one side and G on one side in the year of 1925, by the Selectmen of Enfield and Grantham.

#### **1932**

Thence north 41 degrees east to a stake and stones set by Draper Co. in 1925 marked S.W. corner of Enfield and Grantham.

#### **1940**

Post with stones about, standing about 70 feet Northerly of wood road or trail which leads from the "Buffalo Bill" lot in Enfield toward Cole Pond. Said corner bound is about 1/4 mile westerly from the New road leading from Washburn Corner toward Enfield Center and marks the corner between Enfield and Grantham on the old Enfield town line.

#### **1957**

Continueing (sic) said town line to a post, marked E. & G. with stones about, standing about 70 feet northerly of the wood road or trail which leads from the "Buffalo Bill" lot on the "New" road in Enfield toward Cole Pond, and about 1/4 mile from said road. Said bound being the northwesterly corner of that portion of the town of Grantham which was set off to the town of Enfield in 18 ( ).

#### **2005**

The maker will be a cluster of orange paint splashed rocks with a 4 inch diameter tree protruding with orange tape on it. (Recommend a new post or rock maker be installed)

### **Bound #3A**

#### **1957**

Intermediate mark being a stake and stones, marked T L 57, standing on the westerly side of the ancient road which lead from Enfield Center to North Grantham, and near the R.E.A. service line

### **Bound # 3B**

#### **1925**

Thence  $58^0$  west to a stake and stones standing on the old road leading from Grantham to Enfield Center the stake being set new in 1925 by D. W. Campbell (Selectman of Enfield) and H. A. Howard ( Selectman of Grantham)

#### **1957**

...on a course about south  $49^0-45'$  east, passing an intermediate mark, being a stake with stones on the westerly side of Route #10;

#### **2008**

On May 9 2008, Kurt Gotthardt and Jim Taylor (Enfield Director of Community Development) located the Town Line Monument located on Old Route 10.

It is a concrete bound, 18" high X 6" wide X 6" wide.

There are also two 1" iron rods located in the middle of the road and set flush with the pavement, located in front of this concrete bound.

### **Bound # 4      Enfield/Grantham/Plainfield Corner**

#### **1854**

Thence north  $58^0$  west to a stake and stones marked E. and being the N.W. corner of Grantham and S. W. corner of Enfield and S. E. corner of Lebanon and N. E. corner of Plainfield.

**(The western side of Grantham was annexed to Plainfield in 1856)**

#### **1875**

Thence running north  $58^0$  west to a stone monument marked R.S.H. 1856 on the south. On the east G. + P. on the west standing on Enfield line. It being the established corner bound between Grantham and Plainfield. The northeast corner of Plainfield and north corner of Grantham.

**(See section "History of the Enfield/Grantham/Plainfield Town Line Corner Monument")**

#### **1882**

Thence north  $58^0$  west to a stone post marked E on one side G on one side and P on one side besides several other marks. This being the established corner between Grantham and Plainfield. The N.E. corner of Plainfield and the N.W. corner of Grantham.

#### **1917**

Not being able to find the other two corners

**1918**

Thence  $58^0$  west to a stone post marked E on one side, G on one side and P on one side with several other marks. This being on the Enfield line and corner bound between Grantham and Plainfield. The N.E. corner of Plainfield and the N.W. corner of Grantham.

**1925**

Thence west  $58^0$  to a stone post marked E on one side, G on one side and P on one side with several other marks. This being on the Enfield line and corner bound between Grantham and Plainfield. The N.E. corner of Plainfield and the N.W. corner of Grantham.

**1932**

Thence 58 degrees west to a to a stone post marked E. on one side G. on one side and P. on the other side with several other marks, this being on the Enfield line and corner bound between Grantham and Plainfield, the N.E. corner of Plainfield and the N.W. corner of Grantham.

**1940**

A stone post and pile of stones on land of the Champlain Realty company, said post is marked R.S.H. 56 and is the northeast corner of the town of Plainfield, the Northwest corner of the town of Grantham and is on the southerly line of the town of Enfield.

**1957**

... at a stone post, amid a pile of stones, marked R.S.H.- 56. Said post is the northeast corner bound of Plainfield; also the northwest corner bound of Grantham and marks the southerly line of the town of Enfield, and is also the division point between certain parcels of land belonging to the Champion-International Company.

**2005**

The maker is about a 30-inch high stone located in a small clearing with several beechnut trees nearby. The stone maker is identified by a 53 engraved into it. We marked the stone with orange tape as well as the surrounding trees.

## Summary of the Enfield/Plainfield Perambulation Reports

### Bound # 1    Enfield/Plainfield/Lebanon Corner

#### **1875**

Beginning at a post at the southwest corner of Enfield marked L on the north E on the east and P on the south and west sides.

#### **1882**

Beginning at the southwest corner of Enfield at a post and stones. The post marked L on the north E on the east and P on the south and west sides.

#### **1896**

We began at the southwest corner of Enfield at a post and stones. The post marked L on the North E on the east and P on the south and west sides.

#### **1903**

We began at the southwest corner of Enfield at a post and stones. The post marked L on the North E on the east and P on the south and west sides.

#### **1910**

Beginning at the S.W. corner of Enfield we renewed the wooden post by setting a granite post marked L on the west, E on the east and P on the south

#### **1924/1925**

Met at the southwest corner of Enfield at a post and stone, the post marked L on the north, E on the east, and P on the south and west sides. This post was replaced by a stone post with same marks.

#### **1932**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the south-west bound of the town of Enfield and the south-east bound of the town of Lebanon and marks an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

#### **1939**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the southwest corner bound of the town of Enfield and the southeast bound of the town of Lebanon and marks an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

#### **1948**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the south-west bound of the town of Enfield and the south-east bound of the town of Lebanon, and marking an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P;

## **1957**

Beginning at a stone post on the northerly side of the traveled highway leading to Methodist Hill, so called, in the town of Enfield, it being the southwest bound of the town of Enfield; also the southeast bound of the town of Lebanon: and also marking an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

## **1965**

**We found the post at the corner of Lebanon which stood on the northerly side of the road from East Plainfield to Methodist Hill, which stone is a common marker with Enfield and Plainfield had been removed when the road was rebuilt by the town of Lebanon this year. We reset it on the line with the stonewall between the towns of Lebanon and Enfield at the top edge of the bank beside said road to Methodist Hill.**

## **1972**

We found the post standing at the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. It is a stone post set in concrete and lies on the northerly side of the road leading from East Plainfield to Methodist hill. It is marked P, L and E and is directly opposite Pole No. 4262 of the Grafton County Electric Power and Light Co., now Granite State Electric Co. it is also at the southwest corner of the house lot of Ralph Young. We marked the said post "72" ... and proceeded to follow the line along a bearing of south 49 degrees 45 minutes east (magnetic). The line follows the centerline of that road called by the Plainfield selectmen "Methodist Hill Road" and the Enfield selectmen "Plainfield Road."

## **1990**

We came to the property currently owned by Ralph Young on the northerly side of Methodist Hill Rd. We found the stone in the southwest corner of the property, near Methodist Hill Rd directly across the road from Granite State Electric Pole #19. The stone is a granite marker set in concrete, marking the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. The stone is marked P, L, & E or the corresponding municipalities. We marked the stone with a "90".

## **1998**

From the Plainfield Lebanon line we proceeded up Methodist Hill Rd in the direction of the four corners until we came to the property formerly owned by Ralph Young currently owned by the Waugh Family on the northerly side of Methodist Hill Rd. We found the stone in the southwest corner of the property, near Methodist Hill Rd. directly across the road from Granite State Electric Pole #19. The stone is a granite marker set in concrete, marking the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. The stone is marked P, L, & E for the corresponding municipalities. We marked the stone with a "98".

## **2006**

Stone #1 is a Granite Post, measuring 6 1/2" by 7" by 18 1/2" high.

The GPS coordinates for this monument are 43° 35' 07" N, 72° 12' 29" W  
WGS 84 Datum / NAD 83.

## **Bound # 2**

**1972**

**It was decided and agreed that this day we would establish as permanent markers three stones. These we designated as markers No. 2, No. 3 and No. 4 along said line.**

Stone No. 2 is a round boulder situated on the north side of the road about 100 feet east of the road into the Sears place so-called. The boulder lies adjacent to an iron pin set in the ground next to a young maple tree and is at the end of a low stonewall. We marked this stone "E" and "P" and "72".

**1990**

Stone #2: From stone #1 the town line(s) follow up the center of Methodist Hill Rd through the four corners on a bearing of south 66 degrees 41 minutes east (true north). Stone #2, a large round boulder was located 100 ft east of the drive to the Sears Residence so called on the northerly side of the road. The marker lays some 25 ft. from the center of the road on top of an earthen mound. A stone cairn was established at this location to further mark the stone. Said cairn is adjacent to a 14" maple with an iron pipe driven into its base. For additional identification, stone #2 lies almost directly underneath power lines crossing Methodist Hill Rd from Granite State Pole #42/38.

**1998**

Stone #2: From stone #1 the town line(s) follow up the center of Methodist Hill Rd through the four corners on a bearing of south 66 degrees 41 minutes east (true north). Stone #2, a large round boulder was located 100 ft east of the drive to the Sears Residence so called on the northerly side of the road. The marker lays some 25 ft from the center of the road on top of an earthen mound. We located the stone cairn established at this location to further mark the stone. Said cairn is adjacent to a 18" maple with an iron pipe driven into its base. For additional identification, stone #2 lies almost directly underneath power lines crossing Methodist Hill Rd from Granite State Pole #42/38. We freshened the stone with a "98".

**2006**

The GPS coordinates for this monument are  $43^{\circ} 34' 46''$  N,  $72^{\circ} 11' 18''$  W  
WGS 84 Datum / NAD 83.

### **Bound # 3**

#### **1972**

Stone No. 3 is a piece of native stone about two feet high set on a mound of dirt on the southeasterly side of the road as it swings northeasterly into Enfield, leaving the magnetic course noted above. A drainage cutout is situated just to the northeast of the said stone, which is also witnessed by a spruce tree about nine inches thick. We marked this "E" and "P" and "72". Through mistake the "E" was chiseled upside down on the said stone.

#### **1990**

Stone # 3: Is a piece of native stone located at the center of a stone cairn with a P and E chiseled into it. This stone is within site of stone # 2 and lies some 60 ft. east of a drainage culvert on the south side of said Methodist Hill Rd. Stone # 3 lies within 15 ft. of the traveled way of said Rd. We renewed the marks on stone # 3 and chiseled a "90" into it.

#### **1998**

Stone # 3: Is a piece of native stone located at the center of a stone cairn with a P and E chiseled into it. This stone is within site of stone # 2 and lies some 60 ft. east of a drainage culvert on the south side of said Methodist Hill Rd. Stone # 3 lies within 15 ft. of the traveled way of said Rd. We renewed the marks on stone # 3 and chiseled a "98" into it.

#### **2006**

The GPS coordinates for this monument are  $43^{\circ} 34' 45''$  N,  $72^{\circ} 11' 16''$  W  
WGS 84 Datum / NAD 83.

## **Bound # 4**

### **1972**

Stone No. 4 is a flat-topped stone about two feet across at its top situated on a bank on the east side of the road as it swings south back into Plainfield. It lies on the line of an old stonewall which is bisected by the road and which extends easterly up to the summit of Methodist Hill, forming part of the boundary. This stone lies in an area of pruned young pine trees. We marked this stone "E" and "P" and "72" and laid up a small cairn of stones 6 feet to the east of it.

### **1990**

Stone # 4: Is a flat-topped stone about two feet across at its top situated on a bank on the east side of the road as it swings south back into Plainfield toward the Backofen residence. The stone lies on the line of an old stonewall which is bisected by Methodist Hill Rd. and which extends easterly up towards the summit of Methodist Hill forming part of the boundary. We renewed the marks on the stone adding a "90". Six feet to the east of this stone lies a stone cairn further identifying its location. A yellow iron pipe placed during the recent Backofen survey further marks the spot.

### **1998**

Stone # 4: Is a flat-topped stone about two feet across at its top situated on a bank on the east side of the road as it swings south back into Plainfield toward the Backofen residence. The stone lies on the line of an old stonewall which is bisected by Methodist Hill Rd. and which extends easterly up towards the summit of Methodist Hill forming part of the boundary. We renewed the marks on the stone adding a "98". Six feet to the east of this stone lies a stone cairn further identifying its location. A yellow iron pipe placed during the 1990 Backofen survey continues to further mark the spot.

### **2006**

Next to Stone #4 is a 2" hollow pipe, 7" above ground, and painted yellow. The GPS coordinates for this monument are  $43^{\circ} 34' 44''$  N,  $72^{\circ} 11' 9''$  W  
WGS 84 Datum / NAD 83.

**Bound # 5 Enfield/Plainfield/Grantham Corner**

**1875**

Thence south  $41^0$  east. To a stone post marked R.H.S. 1856 on the south, G on the east, P on the west. It being the northeast corner of Plainfield and the northwest corner of Grantham.

**1882**

Thence south  $41^0$  east to a stone post marked (R S H 1856) on the south G on the east P on the west and E on the north. It being the northeast corner of Plainfield and the northeast corner of Grantham (on the Enfield line).

**1896**

Thence south  $41^0$  east to a stone post marked R S H 1856 on the south G on the east P on the west and E on the north. It being the northeast corner of Plainfield and the northwest corner of Grantham on the Enfield line.

**1903**

Thence south  $41^0$  east to a stone post marked R S H 1856 on the south G on the east P on the west and E on the north. It being the northeast corner of Plainfield and the northwest corner of Grantham on Enfield line.

**1910**

Thence S  $41^0$  E to a stone post marked R. H. 1856 on the south G on the east, P on the west and E on the north it being the northeast corner of Plainfield and the north west corner of Grantham on Enfield line.

**1924/1925**

Thence south  $41^0$  east to a stone post marked R. S. H 1856 on the south, G on the east, P on the west, E on the north. It being the northeast corner of Plainfield and the northwest corner of Grantham on the Enfield Line.

**1932**

Thence south  $52^0 40'$  east to a stone post and pile of stones on land of the Champlain Realty Company, said post is marked R.S.H. 56 and is the north-east corner of Plainfield, the north-west corner of Grantham and is on the southerly line of Enfield.

**1939**

Thence in a straight line to a stone post and pile of stones on land of the Champlain Realty Company, said post being marked R.S.H. 56 and is the northeast corner of Plainfield, the northwest corner of Grantham and is on the southerly line of Enfield.

**1948**

Thence south  $50^0 40'$  east to a stone post and pile of stones on land of the Champlain Realty Company, said post being marked R.S.H. 56 and is the north-east corner of Plainfield, the north-west corner of Grantham and on the southerly line of Enfield.

## **1957**

Thence south about  $49^{\circ} 45'$  east (magnetic) to a stone post and a pile of stones, on land of the Champlain Realty Company, now or formerly, said post is marked R.S.H.- 56 and is the northeast corner of the town of Plainfield, and also the northwest corner of the town of Grantham, and on the southerly line of the town of Enfield.

## **1965**

Thence the line runs south about  $49^{\circ} 45'$  east (magnetic) to a stone post and a pile of stones, on land now or formerly of the Champlain Realty Co. This post is marked R.S.H.-56 etc.; we also marked it 65. This stone is the northeast corner of the town of Plainfield, and also the northwest corner of the town of Grantham, and stands on the southerly line of the town of Enfield.

## **1972**

We then proceed by car... to the North Grantham exit, ...turned north onto the old Route 10... We proceeded to follow the logging road up the steep bank, crisscrossing the brook on several occasions. Eventually we came to a swampy area flooded by beaver. We walked around the south edge of the beaver pond, coming to a large maple tree with a gray stone and a white quartz stone resting against its foot, the location being noted in the record of the perambulation of the Plainfield –Grantham town line in 1967. From this point proceeded along a rough azimuth of 330 degrees, following a line of blazed trees. Continuing in the general direction, the stone was found about one third of the way up the hill.

This stone is a gray upright piece of stone surrounded small stones, and stands about two feet high and is witnessed by a tall birch on which are carved "53" and "VH". We marked this stone "72" amongst a great many initials and numerals from previous perambulations.

## **1990**

Stone # 5: We followed the stonewall adjacent to stone # 4 to the top of Backofen's field where another stonewall diverged perpendicularly to the south. Continuing to follow the wall into the woods on a bearing of approximately 129 degrees east of north (magnetic) for a couple hundred yards we crossed a woods road where it passed through the wall. A couple hundred feet beyond, the wall ended abruptly under a large ash stump.

Continuing uphill along the stated line, noting occasional remnants of an old fence line, we past a thin flat rock, two by three feet square, leaning against the south side of a twelve inch diameter spruce tree about thirty feet in front of a large outcropping of ledge. We scrambled over the ledge, and continued along the boundary through an area of dense young spruce. As we crossed the shoulder of the hill below the abandoned tower we encountered a yard square section of exposed white ledge marked by a yellow painted iron pipe that had been placed by the recent surveyors of the Backofen property to mark a corner.

Starting downhill along the boundary we were forced to circumvent a beaver pond, ... we passed through additional swampy areas. The boundary marker was found on the side hill with another pond just visible through the trees 1/8 to 1/4 mile below.

The stone is a gray upright piece of stone surrounded by smaller stones, standing about two feet high and is witnessed by a tall birch on which are carved "53" and "VH". We noted that the birch is now dead, and may not survive intact until the next perambulation. Several initials of members

of past perambulations are carved on adjacent trees as well. We renewed the marks on stone # 5, adding a "90".

## 1998

Stone # 5: We followed the stonewall adjacent to stone # 4 to the top of Backofen's field where another stonewall diverged perpendicularly to the south. Continuing to follow the wall into the woods on a bearing of approximately south 66 degrees 41 minutes east (true north) for a couple hundred yards we crossed a woods road where it passed through the wall. A couple hundred feet beyond, the wall ended abruptly under a large ash stump.

Continuing uphill along the stated line, noting occasional remnants of an old fence line, we past a thin flat rock, two by three feet square, leaning against the south side of a eighteen inch diameter spruce tree about thirty feet in front of a large outcropping of ledge. We scrambled over the ledge, and continued along the boundary through an area of dense young spruce. As we crossed the shoulder of the hill below the abandoned tower we encountered a yard square section of exposed white ledge marked by a yellow painted iron pipe placed there in 1990 by the surveyors of the Backofen property to mark a corner.

Starting downhill along the boundary we were forced to circumvent a beaver pond, ... we passed through additional swampy areas. The boundary marker was eventually found on the side hill as previously noted in earlier perambulations. However, the surroundings have been significantly altered from earlier writings. The marker was surrounded by downed trees. The stone is a gray upright piece of stone surrounded by smaller stones, standing about two feet high.

The stone lies about two thirds the way up the side hill with a pond just visible down through the trees. Standing at the stone looking beyond the pond to the horizon a distinctive notch or saddle is visible in the ridge line.

## 2006

We then followed the stonewall until it ended, a 1 1/2" hollow pipe, 12" above ground, and painted yellow was found just beyond the end of the wall.

We then proceed to follow a compass bearing S 66<sup>0</sup> E to a 1 3/4" hollow pipe, 21" above ground, and painted yellow.

The GPS coordinates for this monument are 43° 34' 36"N, 72° 10' 47"W  
WGS 84 Datum / NAD 83.

We then continued on a compass bearing S 66<sup>0</sup> E to a large beaver pond. As a side note, a stick built birds nest was noticed in a dead snag along the northern edge of this beaver pond. The compass bearing was lost as we walked around the southern side of this beaver pond.

We followed a general compass bearing until we found the stone monument marking the Enfield / Plainfield / Grantham common corner, known as stone #5.

Stone #5 is a Granite Post, measuring 8" by 6" by 26" high.  
A 1" rebar 17" above ground, and painted yellow is next to this monument.  
The GPS coordinates for this monument are 43° 34' 25"N, 72° 10' 11"W  
WGS 84 Datum / NAD 83.

## History of the Enfield/Lebanon/Plainfield Corner Monument

### **1761 Enfield Charter**

beginning at the south-east corner of Lebanon...

### **1781 Report of Committee on Town Lines**

That the southeasterly corner boundary of Lebanon which is likewise the southwesterly corner boundary of Enfield alias Relhan **commonly called Sumners bound - is a fixed known & true boundary.**

### **1786 Establishing the Line Between Lebanon And Enfield**

firstly began at a white Pine tree marked on the easterly bank of Conacutt River which is caled the agreement tree between s<sup>d</sup> Lebanon and Plainfield and thence mesured easterly on the line between s<sup>d</sup> Lebanon and Plainfield six mильs to a stake and stone commonly known by the name of Sumners Bound

### **1847 Enfield/Lebanon**

South/east corner bound of Lebanon and the south/west corner of Enfield. Which we renewed.

### **1854 Enfield/Lebanon**

Begin at a stake and stones being the south/east corner of Lebanon and the south/west corner of Enfield and **erected a pine post in the place where the old one stood and marked the same L.E. [names] 1854 which is established as the corner of said towns. [Signed by a surveyor]**

### **1854 Plainfield/Lebanon**

Beginning at the southeast corner of Lebanon and northeast corner of Plainfield

### **1861 Enfield/Lebanon**

Beginning at a pine post and stones being the south/east corner of Lebanon and the south/west corner of Enfield and marked the same [names] 1861 which is established as the corner of said towns.

### **1861 Plainfield/Lebanon**

Beginning at the southeast corner of Lebanon at a pine post standing in the north line of said Plainfield marked L and (initials) 1861 also marked P and (initials) 1861

### **1868 Enfield/Lebanon**

Beginning at a pine post and stones being the south/east corner of Lebanon and south/west corner of Enfield and marked the same [names] 1868 which is established as the corner of said towns.

### **1875 Enfield/Lebanon**

Beginning at a pine post and stones being the south/east corner of Lebanon and the south/west corner of Enfield and marked the same [names] 1875 which is established as the corner of said towns.

**1875 Enfield/Plainfield**

Beginning at a post at the southwest corner of Enfield marked L on the north E on the east and P on the south and west sides.

**1882 Enfield/Lebanon**

Met at the south/east corner of Lebanon and the south/west corner of Enfield being a post and stones.

**1882 Enfield/Plainfield**

Beginning at the southwest corner of Enfield at a post and stones. The post marked L on the north E on the east and P on the south and west sides.

**1889 Enfield/Lebanon**

At the south/east corner of Lebanon and the south/west corner of Enfield said corner being a post and stones.

**1896 Enfield/Plainfield**

We began at the southwest corner of Enfield at a post and stones. The post marked L on the North E on the east and P on the south and west sides.

**1903 Enfield/Lebanon**

Beginning at a post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E with various other marks.

**1903 Enfield/Plainfield**

We began at the southwest corner of Enfield at a post and stones. The post marked L on the North E on the east and P on the south and west sides.

**1910 Enfield/Plainfield**

**Beginning at the S.W. corner of Enfield we renewed the wooden post by setting a granite post marked L on the west, E on the east and P on the south**

**1910 Enfield/Lebanon**

Beginning at a granite post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E with various other marks.

**1910 Plainfield/Lebanon**

Beginning at the southeasterly corner of Lebanon at a granite post marked E on the east, L on the north, and P on the south standing on the northerly line of Plainfield

**1917 Enfield/Lebanon**

Beginning at a granite post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E **and an iron pin in the top of said post.**

**1924 [typed print] Enfield/Lebanon**

Beginning at a granite post and stones in the south/east corner Lebanon and the south/west corner of Enfield, said post marked L+E and an iron pin in the top of said post.

**1924/1925 Enfield/Plainfield**

Met at the southwest corner of Enfield at a post and stone, the post marked L on the north, E on the east, and P on the south and west sides. This post was replaced by a stone post with same marks.

**1931 Plainfield/Lebanon**

Beginning at the south easterly corner of Lebanon at a granite post with an iron pin in the top, standing in the northerly line of Plainfield

**1932 Enfield/Plainfield**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the south-west bound of the town of Enfield and the south-east bound of the town of Lebanon and marks an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

**1938 Plainfield/Lebanon**

Beginning at the southeasterly corner of Lebanon at a granite post with an iron pin in the top standing in the northerly line of Plainfield

**1939 Enfield/Plainfield**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the southwest corner bound of the town of Enfield and the southeast bound of the town of Lebanon and marks an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

**1939 Plainfield/Enfield**

Beginning at the south west corner of Enfield at a stone post marked L. on north, E. on the east and P. on the south and west sides

**1948 Enfield/Plainfield**

Beginning at a stone post on the northerly side of the traveled highway leading from Plainfield to Methodist Hill in the town of Enfield, it being the south-west bound of the town of Enfield and the south-east bound of the town of Lebanon, and marking an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P;

**1957 Enfield/Plainfield**

Beginning at a stone post on the northerly side of the traveled highway leading to Methodist Hill, so called, in the town of Enfield, it being the southwest bound of the town of Enfield; also the southeast bound of the town of Lebanon: and also marking an angle in the northerly line of the town of Plainfield, said post being marked with the letters E-L-P:

**1965 Enfield/Plainfield**

**We found the post at the corner of Lebanon which stood on the northerly side of the road from East Plainfield to Methodist Hill, which stone is a common marker with Enfield and Plainfield had been removed when the road was rebuilt by the town of Lebanon this year. We reset it on the line with the stone wall between the towns of Lebanon and Enfield at the top edge of the bank beside said road to Methodist Hill.**

This stone is the southwest bound of the town of Enfield and also the southeast bound of the town of Lebanon; and it also marks an angle in the northerly line of the town of Plainfield.

### **1967 Plainfield/Lebanon**

Beginning at the southeasterly corner of Lebanon at a granite post standing in the northerly line of Plainfield

### **1972 Enfield/Plainfield**

We found the post standing at the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. It is a stone post set in concrete and lies on the northerly side of the road leading from East Plainfield to Methodist hill. It is marked P, L and E and is directly opposite Pole No. 4262 of the Grafton County Electric Power and Light Co., now Granite State Electric Co. it is also at the southwest corner of the house lot of Ralph Young. We marked the said post "72"

### **1990 Enfield/Plainfield**

Stone #1: We came to the property currently owned by Ralph Young on the northerly side of Methodist Hill Rd. We found the stone in the southwest corner of the property, near Methodist Hill Rd directly across the road from Granite State Electric Pole #19. The stone is a granite marker set in concrete, marking the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. The stone is marked P, L, & E or the corresponding municipalities. We marked the stone with a "90".

### **1998 Enfield/Plainfield**

Stone # 1: From the Plainfield Lebanon line we proceeded up Methodist Hill Rd in the direction of the four corners until we came to the property formerly owned by Ralph Young currently owned by the Waugh Family on the northerly side of Methodist Hill Rd. We found the stone in the southwest corner of the property, near Methodist Hill Rd directly across the road from Granite State Electric Pole #19. The stone is a granite marker set in concrete, marking the southeast corner of the City of Lebanon and the southwest corner of the Town of Enfield. The stone is marked P, L, & E or the corresponding municipalities. We marked the stone with a "98". As described in the 1972 and 1990 perambulations.

### **2005 Enfield/Lebanon**

Bound #1 (Corner): On north side of Methodist Hill Rd., at junction of Enfield, Lebanon, & Plainfield boundaries, an iron pin in granite post set on concrete pad. Post has beveled top with chiseled "L" on north side and chiseled "E" on south side. No "P" visible. Post appears to have been reset 90 degrees off of proper orientation (perhaps when set in concrete?). Newer, roughly carved "E" and "L" appear on east and west sides, respectively, of same post. Exposed post measures 18.5" from concrete base to top, and is 7" x 6.5" around. Plug-and-feather stonemasonry method evident: round holes were drilled every 6" or so along break line.

### **2006 Enfield/Plainfield**

Stone #1 is a Granite Post, measuring 6 1/2" by 7" by 18 1/2" high.

The GPS coordinates for this monument are 43° 35' 07" N, 72° 12' 29" W  
WGS 84 Datum / NAD 83.

## History of the Enfield/Lebanon/Hanover/Canaan Corner Monument

### **1761 Enfield Charter**

to the north-east corner of Lebanon;

### **1781 Report of Committee on Town Lines**

to a **Birch Stump** which is the corner of Lebanon—Enfield and Canaan

### **1786 Establishing the Line Between Lebanon And Enfield**

a bound standing at the northeasterly corner of s<sup>d</sup> Lebanon **commonly known by the name of the Birch tree, but s<sup>d</sup> tree being fell down a stake and stons erected in the place whare said Birch tree stood;**

### **1800 Lebanon/Hanover**

To the northeast corner bound of Lebanon and the southeast corner of Hanover which is a stake and stones. The stake is marked on the westerly side H + CC and on the southerly side L. 1800. TW. GB + C.

### **1847 Enfield/Lebanon**

**To the charter bound**, being the north/east corner of Lebanon and the north/west corner of Enfield being a stake and stones marked L+E.

### **1854 Enfield/Lebanon**

To an oak stake with stones about it being the north/east corner of Lebanon and the north/west corner of Enfield and marked L.E. W.G.P. U.P. 1854. [Signed by a surveyor.]

### **1861 Enfield/Lebanon**

To an oak stake and stones around it being the north/east corner of Lebanon and the north/west corner of Enfield at which corner of said towns **we erected a cedar post and marked the same [names] L.+ E. 1861.**

### **1861 Lebanon/Hanover**

To a cedar post with stones around it marked [names] 1861, being the north-east corner of Lebanon and south-east corner of Hanover.

### **1868 Enfield/Lebanon**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield and we marked said cedar post [names] 1868.

### **1875 Enfield/Lebanon**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield.

### **1875 Enfield/Canaan**

We began at the northwest and southwest corner of said towns at a post marked E and C 1875. Which is established as the corner bound.

**1875 Lebanon/Hanover**

To a cedar post, marked, standing at the S.E. corner of Hanover and the N.E. corner of Lebanon.

**1882 Enfield/Lebanon**

To the north/east corner of Lebanon and the north/west corner of Enfield.

**1882 Enfield/Canaan**

...at a stake in a pile of stones at the southwest corner of Canaan and the northwest corner Enfield.

**1886 Enfield/Canaan**

Thence in same course to a stake and stones **which is established corner bound between the towns of Lebanon, Hanover, Canaan and Enfield.**

**1889 Enfield/Lebanon**

To a cedar post and stones being the north/east corner of Lebanon and the northwest corner of Enfield.

**1889 Canaan/Hanover**

Thence running south  $45^0$  west to a stake standing in a pile of stones at the south west corner of Canaan and the south east corner of Hanover

**1960 Plainfield/Grantham**

found the stone standing at the north-westerly corner of Grantham and the northeasterly corner of Plainfield on the south line of Enfield, this stone is marked; E, 46 on the north; P, (initial's) on the west and G, (initial's) on east and R.H.S., on south with date 1856. Marked it 60. Stone no. 1.

### **1965 Enfield/Plainfield**

to a stone post and a pile of stones, on land now or formerly of the Champlain Realty Co. This post is marked R.S.H.-56 etc.; we also marked it 65. This stone is the northeast corner of the town of Plainfield, and also the northwest corner of the town of Grantham, and stands on the southerly line of the town of Enfield.

### **1967 Plainfield/Grantham**

Stone no. 1 is a gray upright piece of stone surrounded by small stones, and stands about two feet high, and is witnessed by a tall birch 10 feet to the east marked "53" and "VH". We marked said stone "67", and renewed blazes on trees in the vicinity.

### **1972 Enfield/Plainfield**

This stone is a gray upright piece of stone surrounded small stones, and stands about two feet high and is witnessed by a tall birch on which are carved "53" and "VH". We marked this stone "72" amongst a great many initials and numerals from previous perambulations.

### **1977 Plainfield/Grantham**

Not finding said "large maple", blazed line, or stone #1 after searching for over an hour, we agreed to return at a later date with one of the previous selectmen familiar with the stone and its location.

(No record of the selectmen returning later was found)

Kurt Gotthardt

### **1985 Plainfield/Grantham**

We found stone #1 about 1/3 of the way up this 2<sup>nd</sup> incline witnessed as mentioned by a birch tree on its east. This tree now being dead, we marked and noted several other birch trees just to the west of the stone. We then taped and re-blazed the line back to the maple tree for future perambulations. This stone bounds Plainfield the west, Grantham the East and Enfield the north.

### **1990 Enfield/Plainfield**

The stone is a gray upright piece of stone surrounded by smaller stones, standing about two feet high and is witnessed by a tall birch on which are carved "53" and "VH". We noted that the birch is now dead, and may not survive intact until the next perambulation. Several initials of members of past perambulations are carved on adjacent trees as well. We renewed the marks on stone # 5, adding a "90".

### **1993 Plainfield/Grantham**

The boundary marker was found on the side hill, as previously described, with another beaver pond just visible through the trees. The stone was surrounded by trees showing evidence of many years worth of blazes. The stone is a gray upright piece of native stone surrounded by smaller stones, standing about two feet high and is witnessed by a tall birch on which are carved "53" and "VH". We noted that that while dead, the birch remains intact at this time. We renewed the markings on stone #1 (stone #5 for the Plainfield / Enfield perambulations)

### **1998 Enfield/Plainfield**

The stone is a gray upright piece of stone surrounded by smaller stones, standing about two feet high. The stone lies about two thirds the way up the side hill with a pond just visible down through the trees. Standing at the stone looking beyond the pond to the horizon a distinctive notch or saddle is visible in the ridge line.

### **2005 Enfield/Grantham**

The maker is about a 30-inch high stone located in a small clearing with several beechnut trees nearby. The stone maker is identified by a 53 engraved into it.

### **2006 Enfield/Plainfield**

Stone #5 is a Granite Post, measuring 8" by 6" by 26" high.

A 1" rebar 17" above ground, and painted yellow is next to this monument.
